SECTION A - SUPPLEMENTAL INFORMATION

1. This document is contract modification P00280 to contract DAAE07-95-C-X030. The purpose of this modification is to reduce excess funds from SubCLINs 0068AD and 0068AE resulting from the contractor completing all contractual efforts specified on previously issued work directive(s). In addition, this contractual action closes out SubCLINs 0068AD and 0068AE, thereby ceasing all further billings against these CLINs, but leaving any overhead rate adjustments open and subject to settlement during final closeout of this contract. Furthermore, this contractual action amends paragraph 1.a from narrative A202 on recent contract modification P00279 to specify that only overhead rates remain open and subject to settlement during the closeout process on this procurement. Finally, this modification adds and incorporates into this contract, the following Contingency Operations clauses relating to employment or deployment of civilian contractors to support US Army operations and/or weapons systems:

- a. Draft AFARS Clause 5152.217-7031: "Contractor Deployment on Military Operations"
- b. FAR Clause FAR 52.228-3: "Worker's Compensation Insurance (Defense Base Act)"
